

## PRODUCT SUBMITTAL - MORTAR CLEAR<sup>TM</sup>

The 3GEN Mortar Clear<sup>TM</sup> is designed for traditional brick masonry cavity-wall construction.

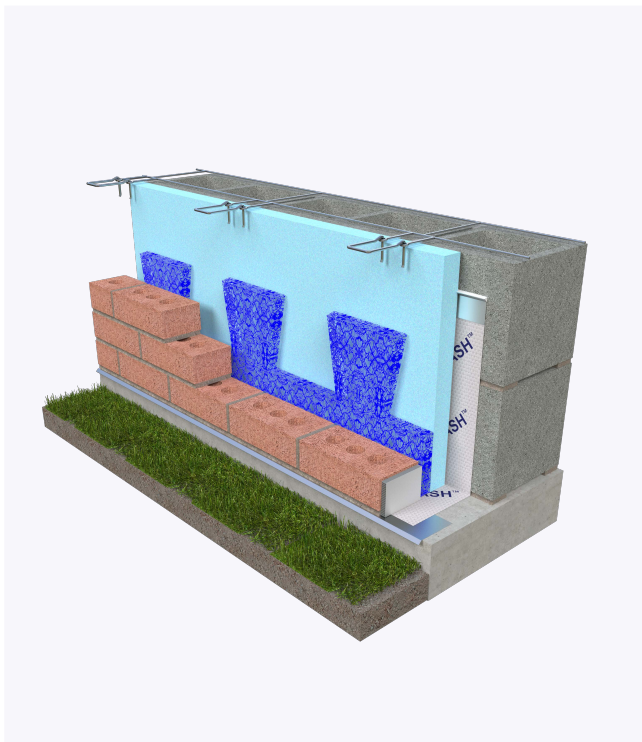

### Material Conformance:

Mortar Clear<sup>TM</sup> is a dovetail drainage mesh to manage mortar droppings in masonry cavity walls and is designed to suspend mortar droppings above the flashing and weeps, keeping them clear and unobstructed. Constructed from high-quality polymer strands woven into a 95% open mesh, it works effectively with properly installed flashing to ensure the free flow of water to weep holes by breaking up mortar droppings on 2 levels above the flashing and weeps, keeping them clear and unobstructed.

### Product Details:

Maintains shape and functionality without deforming or breaking. Does not absorb moisture, preventing mold and fungus growth. Withstands temperature variations to last the building's lifetime. Keeps weep holes open by suspending mortar droppings. Slightly compressible to fit various cavity sizes

### Material:

Structural Polymer Strand Mesh

### Length:

5Ft. Long

### Size:

4" x 10"    1" x 10"    1 1/2" x 10"    2" x 10"
